

Product Benefits

Easy Clean Up – Just place a standard 5-gallon pail of premixed paint on the machine and you are ready to paint your field. When the job is done just remove the pail, reseal it for future use, pump a little clear water through the system, and you are ready for the next field marking job.

No Pushing -The EcoLiner™ SP simple friction drive pulls the striper over uneven surfaces and up inclines making it the the perfect paint striping machine to rough fields.

Built to Last – Made in the USA with all welded steel construction and quality components to provide you with years of trouble-free service

Product Overview

The EcoLiner™ SP Field Striping Machine has all the great features of the EcoLiner™ II, plus it is self-propelled. Allowing you to get more done with less fatigue. The EcoLiner™ SP outperforms striping machines costing hundreds of dollars more.

Fast and Simple to Use

1. Designed specifically for use on Athletic fields
2. A 120cc Briggs & Stratton engine with Oil Alert
3. Dual handles with cushioned grips and all welded steel construction
4. It's unique, simple design is easy and inexpensive to maintain.
5. Quickly change your paint colors.
6. Optional HashMark™ Master accessory available for quickly painting hash marks.

Premium Performance, Economical Price
With the **Ecoliner™** Battery Powered Field Striping Machine

Product Features

Paint Fields in Half the Time: The efficient spray nozzle design paints high-quality lines the first time, eliminating the need for tedious touchup and repainting of lines for increased visibility. Plus, detachable spray gun with 12 foot hose makes it easy to paint stencils, corner arcs, and hard to reach areas.

No more pushing: The Ecoliner™ SP features an easy to use variable speed friction drive system allowing for reduced operator fatigue, increased control, and effortless striping of uneven surfaces. Combined with four 10" diameter pneumatic wheels, it easily moves over rough terrain.

No more clogged filters: The EcoLiner™ SP features a large replaceable foot filter on the intake hose. Cleaning the filter takes less than 30 seconds. The recirculating pump keeps the paint continually mixed with no settling. You no longer need to stop and stir.

Easy Clean Up: The optional left and right 1 gallon cleaning tanks let you clean your spray gun and hoses without leaving the field. Quickly and easily attach to the side of the machine.

Get both the left and right option for extra cleaning capacity, or, for fields with more than one color of markings, you can fill one tank up with a secondary paint color.
