

NewRider™ 1700 Airless Riding Field Line Striper

10004026

Benefits

Easy Clean Up

Onboard 2.5-gallon purge tank lets you clean the spray gun and hose in the field, and inline filter prevents clogs.

Convenience & Comfort

The 2-position high back seat with operator controls for ignition, throttle, and parking brake, and a cup/cell phone holder, keeps everything within arms reach. Seat-based foot pedals control forward/reverse speed, spray gun activation, steering column lock, and lifting/lowering the spray head.

Efficiency

The 25-gallon paint tank allows you to paint 5 soccer fields or 2.5 football fields on a single tank and the 3000 psi high-pressure airless pump atomizes paint into a fine mist. This enhances paint coverage efficiency by 30% over low pressure machines.

Built to Last

Made in the USA with all welded steel construction and quality components for years of trouble-free service.

Overview

The **NewRider™ 1700 Airless Riding Field Line Striper** is the most economically priced athletic field riding striper available. Similar to the larger NewRider 5000, this machine has been designed with many features that make striping athletic fields as easy and efficient as possible.

- Operator-friendly riding striper with 25-gallon paint compacity.
- Reliable 3000 psi spray pump with great precision & control.
- Variable 0-6 mph transaxle with dynamic braking.
- Integrated purge tank for on-site cleaning
- Proudly Made in the USA and Free Shipping is available.

Product Specifications

Application	Athletic Field Striping
Spray Pump	High Pressure Airless (0-3000 psi, 0.44 gpm)
Propulsion	Riding
Engine	Briggs & Stratton 10.5 HP
Paint Capacity	25 Gallon
Wheels	15" Pneumatic (front) & 18" (rear)
Origin	Proudly Made in the USA
Warranty	36 Months
Weight	625 lbs
Ship Weight	710 lbs
Ship Dimensions	73" L x 44" W x 56" H

NewRider™ 1700 Airless Riding Field Line Striper

10004026

Product Features

Hassle-Free Clean Up		The onboard 2.5-gallon purge tank lets you clean your spray gun and hose right in the field and the inline filter keeps you running without clogs.
25-Gallon Paint Tank		The large 25-gallon paint tank allows for more time painting and less time refilling your paint supply. A single tank provides enough coverage to paint up to 5 regulation soccer fields or 2.5 football fields.
Paint Efficiency		NewRider's 3000 psi, high pressure airless pump atomizes paint more efficiently than other lower pressure stripers. This allows for nearly 30% more coverage per gallon of paint at 450 linear feet per gallon, making NewRider stripers one of the most efficient ride-on athletic stripers on the market.
Floating Spray Head		The floating spray head allows for straight, consistent lines even on bumpy fields. Equipped with a pneumatic wheel that leads the spray gun, the floating head keeps a consistent spray pattern over all types of field conditions.
