

LineRider™ UTV Mounted Airless Line Striper

10005242

Benefits

Fast

LineRiders can stripe up to 8 mph, which is 3X faster than walk-behind stripers, and the pivot wheel guiding the spray gun delivers great control at different speeds.

Versatile

This innovative striper accommodates all types of bulk athletic paint (thick, thinned, or temporary) so you can select the right paint for your job.

Efficient

The 25-gallon paint tank allows you to stripe miles of lines before refilling. Its convenient 2.5-gallon purge tank lets you clean the system while in the field or immediately after use.

Built to Last

Made in the USA with all welded steel construction and quality components for years of trouble-free service.

Overview

The **LineRider™ UTV Mounted Airless Line Striper** is one of the fastest, most durable, and economical riding field striping machines available. Simply slide it into your current UTV's bed and let it do the work for you. No more pushing a walk behind striper for miles a day.

- Fits most popular UTVs (John Deere, Kubota, Ranger & others).
- Stripes up to 8 mph, 3X faster than typical walk behind stripers.
- Large 25-gallon paint tank and adjustable high pressure airless pump (0-3000 psi) allows you to stripe with precision.
- Easy to install or remove in less than 10 minutes.
- Proudly Made in the USA and Free Shipping is available.

LineRider™ UTV Mounted Airless Line Striper

10005242

Product Features

Versatile		The LineRider fits on the most popular UTVs on the market (John Deere, Kubota, Ranger, and many others). It also accommodates all types of athletic paint, whether it's thick, thinned or temporary. Just choose the athletic paint that works best for your job and LinerRider will spray it.
25-Gallon Paint Tank		The large 25-gallon paint tank allows for more time painting and less time refilling your paint supply. A single tank provides enough coverage to paint up to 4 regulation soccer fields or a regulation football field, including numbers and end zones.
Paint Efficiency		LineRider's 3000 psi, high pressure airless pump atomizes paint more efficiently than other lower pressure stripers. This allows for nearly 30% more coverage per gallon of paint at 450 linear feet per gallon, making the LinerRider one of the most efficient ride-on athletic stripers on the market.
Easy to Install and Remove		Your LinerRider quickly slides into the bed of a standard UTV. Complete installation and setup takes less than 10 minutes. When you need your UTV for other jobs, removing your LineRider is just as simple. Weighing only 175 lbs, this machine can be easily handled by just two people.
