

## Pack-Master™ Air Powered

Part #10001259

## Pack-Master™ Manual

Part #10001258

## Pack-Master™ Spark Resistant

Part #10001453

### Product Benefits

Reduce your disposal and storage costs by compacting PPE clothing, rags, gloves, general shop waste, furnace and pleated paper filters, packing materials and more.

**Easy to use** - Simply place a drum of material on the base and compact it by operating the ram lever or activating the joystick on air powered models.

**Portable and Powerful** - Use anywhere, no electricity or hydraulics needed. Ideal for locations throughout the plant. Air models use standard shop air.

**Convenient** - Use with standard 55-gallon open top drums.

**Safe** - Long levers keep operators hands safely away from compaction area.

### Product Overview

**Pack-Master Manual Waste Compactor** - Requires no electricity, hydraulic or air power.

Economical – features welded steel construction and quality components providing the perfect combination of operator safety and control and reducing the cost of disposal up to 75%.

Safe - simple mechanical operation saves energy costs and produces up to 4000 lbs. of force.

**Pack-Master Air-powered waste compactor**- Air powered compactor reduces waste volume by up to 75% quickly and easily with up to 3500 lbs. of force@ 125psi.

Fast Operation - Compaction cycle is just 30 seconds with standard (100 psi) shop air.

Operator safety - Two-handed safety lever keeps the operator's face and hands away from the drum and compacted material.

**Pack-Master™ Spark Resistant Compactor** -All the great features of the Pack-Master air-powered unit plus aluminum cladding on contact surfaces to reduce the potential of sparks when used near hazardous locations or with hazardous materials such as paint booth filters.

**Reduce waste volume** and the associated cost of disposal while keeping work areas clean and free of debris.
