

Product Benefits

For Use with All Athletic Bulk Paints

– Accommodates all athletic bulk paint, whether it be thick, thinned, or temporary paint. No more paying extra for expensive proprietary, boxed paint. Choose whatever paint works for your application.

Reduce Paint Budget – The fully adjustable, 0-3000 psi airless paint pump allows you to select the best pressure to perfectly apply your paint, regardless of the type of field surface that is being painted.

Fast – Stripe up to 8 mph. That’s over three times faster than typical walk behind striper.

Economical – Priced at less than \$7000 the LineRider UTV has features unavailable on any other field striping machine.

Fits on most popular UTVs – John Deere, Kabota, Ranger.

Fewer Stops – The 25 gallon main paint tank lets you **stripe miles of line before refilling**. Alternately, use the convenient five gallon pail option on smaller jobs such as a single field or to quickly change to a second paint color.

Product Overview

- Newstripe, Inc. is pleased to introduce the revolutionary **LineRider™ UTV** mounted field striping and marking machine. Simply slide it into your current UTV’s bed, the power cord simply plugs into the UTV, and you have **the fastest, most durable, and economical riding field striping machine available**. No more pushing a walk behind striper for miles a day. Just sit in the comfort of your UTV, and let it do the work for you.

Product Features

Fits on most popular UTVs – John Deere, Kabota, Ranger.

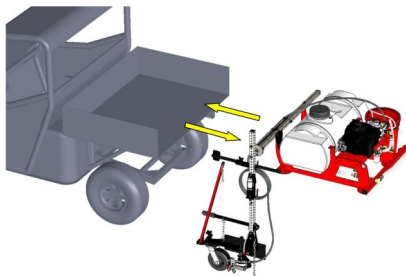

For Use with All Athletic Bulk Paints – Accommodates all athletic bulk paint, whether it be thick, thinned, or temporary paint. No more paying extra for expensive proprietary, boxed paint. Choose whatever paint works for your application.

25 Gallon Tank: The large 25 gallon on board paint tank allow you to spend more time painting and less time refilling paint. Provides enough coverage to paint up to 4 soccer fields or a full football field including numbers and end zones on a single tank.

Paint Efficiency: SAVE 30% ON PAINT COSTS. The NewRider's 3000 PSI, high-pressure airless pump atomizes paint more efficiently than lower pressure stripers. This allows for nearly 30% more coverage per gallon of paint at 450 linear feet per gallon.

Easy Installation and Removal – Quickly slides into the bed of a UTV. The power cord simply plugs into the UTV, and you are ready to stripe. It is that easy and takes less than ten minutes. Need to use your UTV for other jobs? No problem. Removal is as easy and quick as the installation. The total weight of the LineRider is 180 pounds which allows it to be handled by as few as two people.

Fast – Stripe up to 8 mph. That's over three times faster than typical walk behind stripers.
