

LineRider™ Electric UTV Mounted Line Striper 10005241

Benefits

Fast

LineRiders can stripe up to 8 mph, which is 3x faster than walk-behind stripers, and the wheel guiding the spray gun delivers great control at different speeds.

Precision Striping

Customized low pressure spray pump (0-35 psi, 1.8 gpm) and built-in striping guides paint clean and crisp field lines every time.

Efficient

The 25-gallon paint tank allows you to stripe miles of line before refilling. Alternatively, use the convenient 2.5-gallon purge take for smaller jobs such as a single field or to quickly change to a second paint color.

Built to Last

Made in the USA with all welded steel construction and quality components for years of trouble-free service.

Overview

The **LineRider™ Electric UTV Mounted Line Striper** is one of the most budget friendly riding field stripers on the market. Simply slide it into your UTV's bed, anchor it down, and let it do the work for you. No more pushing a walk behind line striper for miles a day.

- Fits most popular UTVs (John Deere, Kabota, Ranger & others).
- Stripes up to 8 mph, 3x faster than typical walk behind stripers.
- Large 25-gallon paint tank and innovative low pressure spray pump (0-35 psi, 1.8 gpm) allows you to stripe with precision.
- Powered by 12V Group 24 Deep Cycle RV Battery (not included).
- Easy to install or remove from your UTV's storage bed in less than 10 minutes.
- Proudly Made in the USA in our Aurora, Colorado factory.
- Free shipping is available within the contiguous United States.

LineRider™ Electric UTV Mounted Line Striper

10005241

Product Features

Compatible with Many Popular UTVS		The LineRider Electric fits on the most popular UTVs on the market from John Deere, Kabota, Ranger, and many others. It also accommodates many brands of thinned athletic paint or temporary paint which gives you additional flexibility.
25-Gallon Paint Tank		The large 25-gallon paint tank allows for more time painting and less time refilling your paint supply. A single tank provides enough coverage to paint up to 4 regulation soccer fields or a regulation football field, including numbers and end zones.
Easy to Install and Remove		Your LinerRider Electric quickly slides into the bed of a standard UTV and is powered by a standard 12V Group 24 Deep Cycle RV Battery (not included). Complete installation and setup takes less than 10 minutes. When you need your UTV for other jobs, removing your LineRider Electric is just as easy and can be easy handled by two people.
Proudly Made in the USA		Like all of our Newstripe products, the LineRider Electric UTV Mounted Line Striper is manufactured locally in our Aurora, Colorado factory. We are proud of our high-quality manufacturing and stand behind it with some of the best warranties in the line striping market.
