

EcoLiner™ SP Self-Propelled Field Striping Machine with Honda Engine

10005122

Benefits

Self-Propelled

The EcoLiner SP's simple friction drive pulls this striper over uneven surfaces and up inclines to make it the perfect line striping machine for rough fields.

Easy Clean Up

Just place a standard 5-gallon pail of premixed athletic paint on the machine and you are ready to stripe your field. When the job is done, just remove the pail, reseal it for future use, pump a little clear water through the system, and you'll be ready for the next job.

Built to Last

This innovative machines is Proudly Made in the USA with all welded steel construction and quality components to provide years of trouble-free service.

Overview

The **EcoLiner™ SP Self-Propelled Field Striping Machine with Honda Engine** has all the great features of the EcoLiner LT, plus it is self propelled so you can get more done with less work. This innovative machine outperforms many competitive striping machines costing hundreds of dollars more.

- Designed specifically for use on Athletic Fields.
- Upgraded Honda GX120 delivers power and reliability.
- Simple design is easy and inexpensive to maintain.

Product Specifications

Application	Athletic Field Striping
Spray Pump	Low Pressure (1.8 gpm)
Propulsion	Self Propelled Walk Behind
Engine	Honda GX120
Paint Capacity	5 Gallon
Wheels	10" Pneumatic, four-wheel design
Origin	Proudly Made in the USA
Warranty	24 Months
Weight	125 lbs
Ship Weight	170 lbs
Ship Dimensions	57" L x 25" W x 44" H
Includes	Detachable spray gun with 2" to 6" adjustable widths, 12' extension hose & 5-gallon pail

EcoLiner™ SP Self-Propelled Field Striping Machine with Honda Engine (10004621)

Product Features

Paint Fields in Half the Time		The efficient spray nozzle design paints high-quality 2" - 6" wide lines the first time, eliminating the need for tedious touchup and repainting of lines for increased visibility. Plus, the detachable spray gun with 12-foot extension hose make it easy to paint stencils, corner arcs, and hard to reach areas.
No More Pushing		The EcoLiner SP features an easy-to-use variable speed friction drive system allowing for reduced operator fatigue, increased control, and effortless striping on uneven surfaces. Combined with four 10" diameter pneumatic wheels, it easily moves over rough terrain.
No Clogged Filters		This EcoLiner features a large replaceable foot filter on the intake hose and cleaning this filter takes less than 30 seconds. In addition, the recirculating pump keeps your paint continually mixed with no settling, so you no longer have to stop in the middle of the job to stir your paint.
Hassle-Free Clean Up		The optional left-side and right-side 1-gallon tanks let you clean your spray gun and hoses without having to leave the field and they can also be used to work with a secondary color if needed. These 1-gallon tanks quickly and easily attach to the EcoLiner SP to expand its capabilities.
