

4250 Airless™ Line Striping Machine 10003947

Benefits

Brighter Lines

Fully adjustable pump allows you to apply the perfect amount of pressure to produce crisp lines with water-based or oil/solvent-based paint.

Easy to Use

The airless pump pulls paint directly from any standard 5-gallon pail. Its universal lid snaps on to prevent spills. Handle mounted spray controls and cushioned grips relieve operator fatigue when striping long lines on paved areas or athletic fields.

Hassle-Free Cleanup

Color changes and clean up can be done in less than 5 minutes. Simply remove the pail with unused striping paint, place a half-filled pail of water or solvent (depending on the paint) on the machine, and flush the system.

Product Features

Dual Position Gun Mount & Detachable Spray Gun		Adjustable dual position spray gun mount provides added versatility. Position spray gun 8" forward of the front wheels for pavement striping or front-wheel aligned for enhanced maneuverability. A quick release clamp allows you to remove the spray gun to paint stencils, curbs, and hard to reach areas with the 25-foot extension hose.
Works with Multiple Paints		The 4250 Airless works well with both water-based and oil/solvent-based paints. Its 3000 psi adjustable pressure pump lets you control the amount of pressure to spray crisp, high-quality lines without wasting paint.
Straighter Lines		The 10" pneumatic tires and four-wheel design help deliver straighter lines when striping all types of surfaces, from asphalt parking lots to concrete warehouse floors to uneven athletic fields.
Easy Clean Up		The optional 1-gallon cleaning tank (sold separately) lets you clean your spray gun and hoses without leaving your job site or field. It quickly and easily attaches to the left side of the machine.
